

# Andgar's Box Fillers For Berries

When your berries are ready to be transported out of your facility, Andgar's Berry Box Fillers are the perfect compliment to your good name on the outside of the box.

Built with multiple-head configurations to fit your processing output, Andgar's Berry Box Fillers are easily controlled by digital touch screens so you get more consistent box weights day after day.

## The Andgar Advantage

- Built with easy to clean, sanitary stainless steel
- Custom configurations in one, two, three or four-heads
- Easily controlled digital touch screens above each feeder head
- Provides real-time production data anywhere in your facility or anywhere in the cloud
- Reduces the potential of injuries because of fewer moving parts
