

Andgar's Pallet Washers

Designed for efficiency to keep your fresh fruit flowing, our pallet washers are part of Andgar's complete sanitation process along with Flat Washers and Stackers to keep your fresh fruit flowing.

We custom build our pallet washers to fit your facility's footprint and help you maintain high standards of hygiene with a design that cleans all sides of the pallet and a hydro sieve screen to separate solids from liquids effectively.

The Andgar Advantage

- Stainless steel construction and drive chain for long life
- Adjustable nozzles on four sides for cleaner pallets
- 10-horsepower pump
- Optional stacker and destacker options reduce the need for labor
