

# Andgar's Washer For Flats & Lugs

Once your flats and lugs have delivered their fresh fruit, they need to be returned to the fields as quickly as possible. Andgar designed its powerful and flexible washer with your short harvesting season in mind.

Our washer can keep up with your marathon pace without having to be shut down or have water tanks changed.

With up to 40 adjustable nozzles for cleaning different sizes, our washer can accommodate any size flat or lug and is adaptable to any sized processing facility.

## The Andgar Advantage

- Constructed with sanitary stainless steel
- Nozzle plug-ups from debris eliminated by filtering through a hydro sieve
- Variable pump horsepower
- Uses less water
- Adaptable to different sized facilities.
