

# Berry Processing Conveyors

Give your berries a smooth, secure and sanitary ride on one of Andgar's custom made food-grade conveyor belts for processing facilities of all shapes and sizes.

Volta's Thermoplastic belting controls bruising and treats delicate berries with care, and their special low-temperature material makes them ideal for frozen food processing lines.

## The Andgar Advantage

- Custom made for any size facility
- Volta belting
- Reduced cleaning costs and downtime
- Lower bacteria counts because no modules, links, hinges or crevices
- Consistent hygiene level over time
- Easy to clean
